SUMMARY

Experienced Full Stack Developer with 2+ years of expertise in HTML, CSS, Bootstrap, Sass, JavaScript, jQuery, React.js, Vue.js, Node.js, PHP, Laravel, and MySQL. Proven track record in developing and maintaining robust web applications. Highly skilled in developing, testing, and debugging web applications. Seeking challenging opportunities to apply knowledge and contribute to the success of innovative projects.

EXPERIENCE

Full Stack Developer

Novus Altair

October 2021 – Present, Karachi

- Develop and maintain responsive web applications using HTML, CSS, Bootstrap, JavaScript, jQuery, Vue.js.
- Utilize Node.js and PHP, frameworks like Laravel, to build robust backend systems and RESTful APIs.
- Collaborate with cross-functional teams to translate business requirements into technical solutions.
- Perform thorough debugging and troubleshooting to identify and resolve issues in both frontend and backend code.
- Continuously enhance application performance and user experience through optimization techniques.
- Participate in code reviews and provide constructive feedback to team members.
- Stay updated on industry trends and emerging technologies to incorporate best practices into development processes.
- Demonstrate strong problem-solving skills and adaptability in tackling new challenges efficiently.

Software Engineer Teacher

Aptech Learning

April 2021 – October 2021, Karachi

- Deliver comprehensive and engaging lectures on HTML, CSS, JavaScript, jQuery, Bootstrap, C++, Python, R language, and Microsoft Office.
- Design and develop curriculum materials, including lesson plans, assignments, and projects, to meet the educational objectives of the courses.
- Conduct hands-on workshops and coding exercises to reinforce theoretical concepts and enhance practical skills.
- Provide personalized guidance and support to students, assisting them with their projects and assignments.
- Foster a collaborative and supportive learning environment conducive to student success.
- Stay updated on the latest developments and trends in software engineering and incorporate relevant advancements into the curriculum.

Junior Web Developer

Adot Worldwide Ltd

October 2020 – March 2021, Karachi

- Create html/css/javascript front end from wireframes or Photoshop compositions.
- Write code to achieve project specifications for new system functionality.
- Investigating and resolving issues and bugs.

PROJECTS

Web App | Novus Guard Pro

Novus Altair • <https://app.novusguard.co.uk/administrator> • November 2021 – Present

- Novus Guard Pro presents a cutting-edge safety and security solution tailored for businesses seeking comprehensive protection measures. With a focus on enhancing employee safety and streamlining operational management, this robust system integrates advanced technologies to provide real-time tracking, lone worker protection, fleet management, and geo-fencing capabilities.
- I developed pivotal features like Job, Patrol, Bidding, and HR Modules, enhancing operational efficiency. Leveraging Laravel, Vue.js, Ajax, and Node.js, I created real-time functionalities including Live Officer Tracking and Chat Messaging using Socket.io, alongside developing APIs for mobile app integration.

Web App | Novus Guard Solo

Novus Altair • <https://solo.novusguard.co.uk/administrator> • November 2021 – Present

- Novus guard solo, a comprehensive smartphone app ensuring user safety with emergency assistance, real-time tracking, and home automation features. It operates seamlessly offline, allowing users to trigger alarms, alert family members, emergency services, and the control room. Distress signals can be shared on WhatsApp and Twitter for widespread help.
- Spearheaded the development of key features including Session Module, Track Individual, Peer-to-peer Tracking, Recipient Alerts, and Home Intelligence System using Laravel, Vue.js, socket.io and Node.js.

Website & Web App | Custom eCommerce Management Web App & Website for Tookary

EXEIdeas International • <https://tookary.com> • July 2022 – December 2022

• Tookary is an online grocery store that allows users to buy fresh vegetables, fruits, and other grocery items at wholesale rates. Tookary is an online bulk buying platform for bulk buyers and retail buyers to purchase bulk quantities at competitive prices. This platform was created specifically to enable households and businesses to purchase daily need products at wholesale prices. We are a startup and at this time we have entered the market with fresh vegetables. Soon you would see other products like fruits, meat, and other products on Tookary.
